https://github.com/Nehal1s

An enthusiastic Computer Science Student with great programming skills alongside interest and knowledge in Game Dev, team cooperation and interpersonal skills. Been working in Unreal engine and have some knowledge of OpenGL and GFLW. And a secret love for Web Dev as well. Always willing to innovate the new things which can improve the existing technology

Projects

Woodland-v (A SpaceShip Game)

An online Multiplayer Game

- It is an online multiplayer spaceship game with flying content to it, it's a battle royal type multiplayer game.
- Implemented Advanced sessions plugins, and made Actor Classes
- Technology we Used:
  - Unreal Engine
  - Blender
  - Advance Session Plugins
- Advance sessions and collisions were hard to implement so we used custom collision classes for it
- Link: https://github.com/Nehal1s/Unreal_p/tree/main/woodlandv4

Experience

Cognizant

Internship

- Working with Cognizant as an intern
- Assigned to Data Warehouse BU
- Technology we Use:
  - Informatica
  - Cognos
  - Bash, SQL

Portfolio

A simple Portfolio website

- Worked to make dynamic animations
- Contains more of my projects
- Provided technical support when necessary

  https://nehal1s.github.io/Nehal1s/

Education

RGPV University

B. Tech in Computer Science and Engineering from Technocrats Group of institutions

2018 - 2022

- Current CGPA 8.61

Modern Higher Secondary School, Tamot (10+2)

Passed with 62%

2016 - 2018

- Ranked 2nd in school in NSO

Skills and Abilities

- Knowledge of Multiple Coding Languages
  - C/C++
  - Unreal Engine
  - Python
  - Node.js
- Data structure and Algorithms
- Problem Solving Skills
- Communication Skills

Accomplishments

- Hacker Earth Contest Rating: 1251
- 5 Star in C++, Hackerrank
